Tests flagged with \* were developed by and performance characteristics were determined by Vibrant America. Indicated tests are not FDA-cleared or approved. The laboratory is regulated under CLIA as qualified to perform high-complexity testing. This test is used for clinical purposes. It should not be regarded as investigational or for research. Tests flagged with † were performed at Vibrant Genomics. Tests flagged with ‡ were performed at Vibrant Wellness. Results of the following tests obtained with different manufacturers' assay methods may not be used interchangeably. The magnitude of the reported levels cannot be correlated to an endpoint titer: all Celiac section tests, Connective Tissue Disease section tests, and the ENA Profile-6.
